

- To show God's love and bring hope to disaster impacted communities in North America by restoring the homes and lives of those who are most vulnerable, To help communities build their capacity to prepare for and recover from disaster, and, To provide opportunities for Christians to honor the Lord by using their time, talents and financial resources in service to others.

Needs Assessment

World Renew DRS volunteers conduct community wide surveys to identify the disaster related needs (construction, household, emotional and financial needs) of vulnerable residents who might otherwise fall through the cracks. This information is provided to the long term recovery group (LTRG). Case managers use this information to make sure those most in need get the assistance they require and qualify for.
