

BROADWAY STREET RECONSTRUCTION CONSTRUCTION UPDATE

Broadway Reconstruction Project is Underway!!

Construction Updates for the project will be coming soon.

Project Overview

Broadway Reconstruction will begin this Spring after the Nicor gas line relocation. The utility relocation is scheduled to begin the week of April 8th. The Broadway Reconstruction Project includes roadway replacement and widening from Park Street to just south of Division Street. The roadway will be reconfigured to one lane in

each direction, a multi-use turn lane, bike lanes and parking. Railroad crossing upgrades will be completed.

Parkway improvements include new sidewalk and pavers, lights, planters and beautification features. Federal dollars will be supporting this major construction project.

The Village of Coal City and Christopher B. Burke Engineering, Ltd. (CBBEL) will send out periodic emails regarding construction activities, detours and details regarding sidewalk and parking access.

CBBEL will serve as the Construction Engineer for the project. Field engineers will be onsite and available to answer construction related questions.

If you no longer wish to receive Broadway Reconstruction Updates, please click the **Unsubscribe** link below. To add an email address, please contact Village Administration or Kristen Marquie with CBBEL at kmarquie@cbbel.com.
