

**Village Enters Service Agreement with Waste Management to Offer Landscaping Totes for Curbside Pickup**

The Village recently started a new program to provide curbside pickup of landscape waste within a 96-gallon container. The new landscaping waste container, which looks like the container for regular recyclables, is a different color and is available optionally. This service will only begin after residents notify the Village of your desire to begin the service.

Prior to the village's new agreement, this service was only available if residents received direct billing from Waste Management. With the Village facilitating the collection of fees for the service, the cost for this service will result in a reduction of the fee for current monthly users. **In order to receive this service, the village shall charge \$3.00 per month in addition to the existing garbage collection fees.**

Collection of the new fee will begin with waste pickup on July 2, 2019. It is necessary for you to sign up for the service by June 20th in order for Waste Management to begin its pickup in July. Charges will be collected in arrears, which means you will be charged after the month you had utilized the service. If you are not sure you would like to join at this time, you may add the service in the future when you wish.

The landscape containers, as well as kraft bags for those residents who do not wish to startup the new curbside container pickup, will be picked up from the beginning of April through the first full week of December. In the months the containers are not being utilized for landscaping waste, they can be used for additional residential garbage. The first drop-off of the containers is free; if you would like Waste Management to bring them out to your property each season, pick-up and drop-off of the containers is \$40 per trip.

If you would like to participate, forms are available at village hall, can be found online at [www.coalcity-il.gov](http://www.coalcity-il.gov) or sign below and return to the Village Hall. If you have any additional questions, please do not hesitate and call village hall at 815-634-8608. Since this is an optional service, it is not required for you to sign up.

\_\_\_\_\_ Yes I would like to sign up for this service.
