

BROADWAY STREET RECONSTRUCTION CONSTRUCTION UPDATE

Construction Update August 7th

The contractor has begun roadway excavation and placement of stone subgrade on the west side starting at Division Street and working south. Sidewalk on the west side of Broadway will be removed at this time. Curb and sidewalk installation is scheduled to begin after the excavation.

Side Street and Driveway Access

Side streets and driveways will be accessible except for brief periods while the contractor is working at that location. Temporary stone access will be re-established once the work is completed in each area. If you need your vehicle for frequent trips during the day, we recommend that you move your vehicle prior to 7:00 AM and park on an adjacent side street or utilize alley access for residents located on the west side of the street.

Sidewalk

The sidewalk will be closed and signage will be in place to direct pedestrians to use the east side of Broadway.
