

BROADWAY STREET RECONSTRUCTION CONSTRUCTION UPDATE

Construction Update - Week of 9/30

The contractor is scheduled to switch traffic the week of September 30th. Northbound Broadway traffic will shift to the west side on the new pavement; allowing construction of the east side of Broadway to begin.

The contractor will begin pavement removal on the east side of Broadway followed by underground storm sewer installation. Sidewalks will remain in place at this time.

Side streets and driveways will have stone access and remain open except for short periods of time when the contractor is working in the area.

Street parking on the east side of Broadway will be closed during this stage. Please utilize parking on the side streets and west side of Broadway.
