INDEPENDENT AUDITOR'S REPORT

To the Village Mayor and Board of Trustees Village of Coal City, Illinois

We have audited the accompanying financial statements of governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Village of Coal City, Illinois, (the Village) as of and for the year ended April 30, 2017, and the related notes to the financial statements, which collectively comprise the basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Village's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Coal City, Illinois, as of April 30, 2017, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village's basic financial statements. The combining and individual fund financial statements and schedules and supplemental data, are presented for purposes of additional analysis and are not a required part of the financial statements. The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements.

The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The supplemental data section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

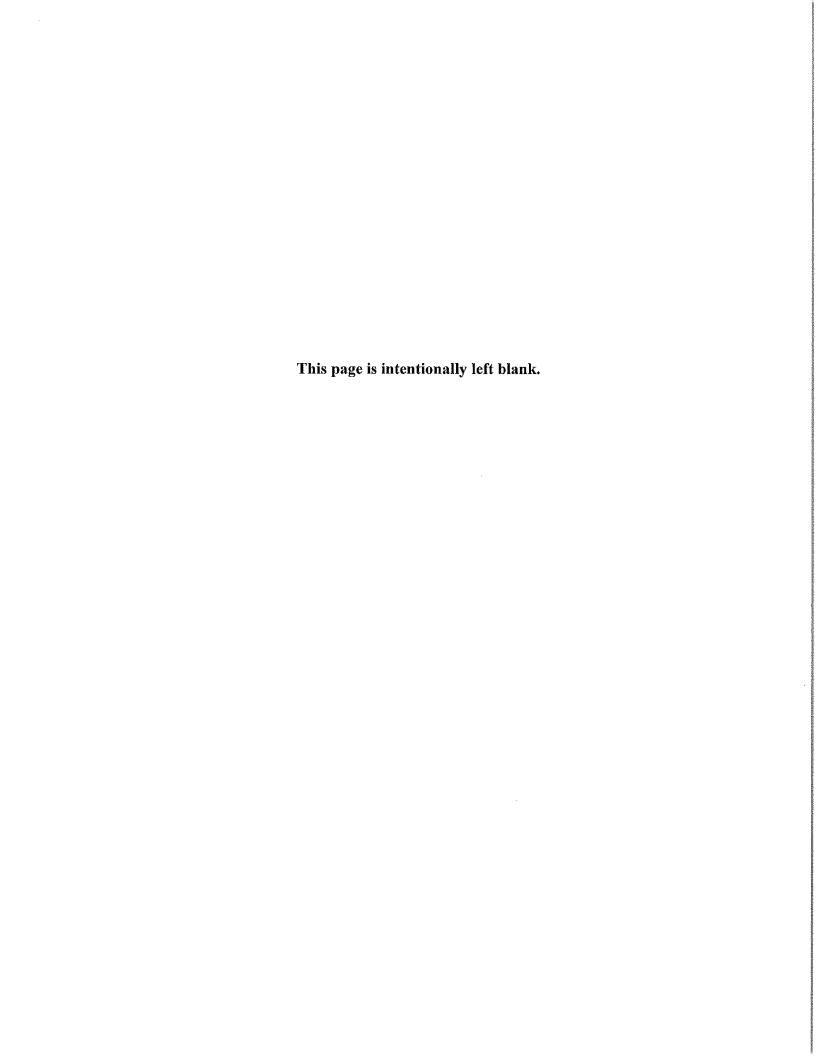

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated September 19, 2017, on our consideration of the Village of Coal City, Illinois' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Village of Coal City, Illinois' internal control over financial reporting and compliance.

Village of Coal City Management's Discussion and Analysis April 30, 2017

This section of the Village of Coal City's (the "Village") Financial Report (AFR) presents Management's Discussion and Analysis (MD&A) of the Village's financial activities during the fiscal year ended April 30, 2017. It is designed to (1) assist the reader in focusing on significant financial issues, (2) provide an overview of the Village's financial activity, (3) identify any material deviation from the financial plan (the approved budget), and (5) identify fund issues or concerns. This narrative is offered as a means to allow the reader a better understanding of the accompanying financial statements.

Financial Highlights

- The assets of the Village of Coal City exceeded its liabilities at the close of the most recent fiscal year by \$45,162,910 (net position). Net position decreased by \$1,426,996 during fiscal year 2017.
- The Village's total assets decreased by \$1,743,578 during the fiscal year ending April 30, 2017. Governmental net position decreased \$1,834,991.
- As of the close of the current fiscal year, the Village of Coal City's governmental funds reported combined ending fund balances of \$2,365,349, a decrease of \$673,460 in comparison with the prior year. Approximately 52% of this total amount, \$1,225,439, is available for spending at the government's discretion (unrestricted, unassigned fund balance).
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$1,275,544 or 37% of General Fund expenditures.

Financial Statement Structure

The discussion and analysis are intended to serve as an introduction to the Village of Coal City basic financial statements. The Village of Coal City's basic financial statements are comprised of three components:

(1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. The very end of the report also contains required supplementary information regarding the bonds issued by the village.

Government-Wide Financial Statements

The government-wide financial statement, found on pages 4-6, are designed to provide readers a broad perspective of the Village's finances, in a manner similar to a private-sector business. This is done by consolidating all of the Village's financial activity into one set of financial statements.

The statement of net position (pages 4-5) presents information on all of the Village's assets and liabilities, with the difference between the two reported as net position. The focus of the Statement of Net Position (the "unrestricted Net Position") is designed to be similar to bottom line results for the Village and its governmental and business-type activities. This statement combines and consolidates governmental funds' current financial resources (short-term spendable resources) with capital assets and long-term obligations using the accrual basis of accounting and economic resources measurement focus. Over time, increases or decreases in net position might serve as a useful indicator of whether the financial position of the Village of Coal city is improving or deteriorating.

The statement of activities (page 6) presents information showing how the Village's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave) and is focus on both the gross and net cost of various activities (including governmental and business-type), which are supported by the Village's general taxes and other resources. This is intended to summarize and simplify the user's analysis of the cost of various government services and/or subsidy to various business-type activities.

The Governmental Activities reflect the Village's basic services, including police, public works, highways and streets, culture and recreation, and general administration. Property taxes, shared state sales taxes, local telecommunications taxes, and shared state income taxes finance the majority of these activities. The Business-Type Activities reflect private sector-type operations (Water Fund), where the fee for service typically covers all or most of the cost of operation including depreciation.

Fund Financial Statements

The fund financial statements begin on page 7 and run through page 16. A *fund* is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. The Village of Coal City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The Fund Financial Statements allow the demonstration of sources and uses and/or budgeting compliance associated therewith. Traditional users of governmental financial statements will find the Fund Financial Statements presentation more familiar. The focus is now on major funds, rather than fund types. All of the funds of the Village can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds. Governmental funds are used to account for essentially the same function reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental fund is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Village maintains 9 individual governmental funds; 3 major funds and 6 nonmajor funds. Information is presented separately in the Governmental Fund Balance Sheet and in the Government Fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund, Debt Service Fund, and Capital Improvements Fund, which are considered to be major funds. Data from the other eight governmental funds are combined into a single, aggregated presentation referred to as Nonmajor Funds. Individual find data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The Village adopts an annual budget for its general fund. Budgetary comparison schedules have been provided to demonstrate compliance with the budget.

The basic governmental fund financial statement can be found beginning on page 5 of this report.

Proprietary Funds. The Village of Coal City maintains two major proprietary funds. *Enterprise funds* are used to report the same functions presented in Business-type Activities in the Government-Wide Financial Statements. The Village has two major enterprise funds, the Water and Sewer Fund and the Garbage Fund.

Proprietary fund Financial Statements (pages 12-14) provide the same type of information as the Government-Wide Financial Statements, only in more detail. The proprietary fund financial statements provide separate information for the Water and Sewer Fund and the Garbage Fund which are considered major funds of the Village and are presented in separate columns in the Fund Financial Statements.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resource of those funds are not available to support the Village of Coal City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 15 and 16 of this report.

Notes of the Financial Statements

The notes to the financial statements provide information essential to the full understanding of the data provided in the Government-Wide Fund financial Statements. These notes to the financial statements can be found immediately following the Basic Financial Statements section of the report beginning on page 17.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* including the general fund budgetary schedules and data concerning the Village's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found immediately following the notes to the financial statements beginning on page 45.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Village of Coal City, assets exceeded liabilities by \$45,162,910 as of April 30, 2017.

By far the largest portion of the Village of Coal City's net position (99%) reflects its investment in capital assets (e.g. land, buildings, machinery, and equipment); less any related debt used to acquire those assets that is still outstanding. The Village of Coal City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Village of Coal City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

At the end of the current fiscal year, the Village of Coal City is able to report positive balances in two of the three categories of net position, both for the government as a whole, as well as for its governmental activities. Business-type activities reported positive balances in all three of the categories.

The Village's total net position decreased by \$1,426,996 during the fiscal year. Governmental net position decreased \$1,834,991. Business-type net position increased \$407,995.

For more detailed information see the Statement of Net Position on page 4.

Governmental activities. Governmental activities decreased the Village of Coal City's net position by \$1,834,991. Business-type activities increased the Village's net position by \$407,995. Key elements of this net decrease of \$1,426,996 are as follows:

Village of Coal City's Changes in Net Position Total Primary Governmental Governmental Activities Business-type Activities 2017 2016 2017 2016 2017 2016 Revenues Program Revenues Charges for Services 2,119,745 2,119,745 2,268,836 2,268,836 Operating Grants and Contrib 27,114 27,114 61,246 61,246 Capital Grants and Contrib General Revenues 2,971,072 3,196,979 2,971,072 3,196,979 Taxes MFT 147,754 148,840 147,754 148,840 Utility Tax 380,048 375,405 380,048 375,405 Interest 17,605 11,104 6,783 5,907 24,388 17,011 620,395 891,059 83,325 64,420 703,720 955,479 Miscellaneous 2,358,944 2,190,072 6,874,705 Total Revenues 4,163,988 4,684,633 6,522,932 Expenses General Government 2,451,806 3,175,327 2,451,806 3,175,327 Public Safety 2,054,841 1,991,330 2,054,841 1,991,330 Streets and alley 1,072,271 1,151,962 1,072,271 1,151,962 Capital Improvements Parks 171,666 57,118 171,666 57,118 463,887 Sanitation 452,296 463,887 452,296 Water and sewer 1,388,161 1,323,985 1,388,161 1,323,985 347,296 402,780 347,296 402,780 Debt Service 1,852,048 1,776,281 Total Expenses 6,097,880 6,778,517 7,949,928 8,554,798 Other Financing Sources (Uses) 98,901 (150, 151)(98,901)150,151

For the fiscal year ended April 30, 2017, revenues from Governmental Activities totaled \$4,163,988. During the fiscal year, property tax continues to be the Village's largest revenue source coming in at \$1,713,998 in Fiscal Year 2017. The Village experienced an increase in its equalized assessed valuation (EAV) from \$100,277,116 for the 2015 property tax year to \$108,656,844 for the 2016 property tax year, an increase of \$8,379,728.

Change in Net Position

Prior Period Restatement

Net Position: May 1

Net Position: April 30

For the fiscal year ended April 30, 2017, expenses from Governmental Activities totaled \$6,097,880.

Fund Financial Statement Analysis

As noted earlier, the Village of Coal City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The Village of Coal City has eleven governmental funds displayed on the balance sheet, found on page 7.

Governmental Funds. The focus of the Village of Coal City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Village of Coal City's financial requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. Governmental funds use a cash basis of accounting designed to measure current financial resources. Consequently, the reader will notice the balance sheet does not show fixed assets or long-term liabilities. The related income statements (combined statement of revenues, expenditures and changes in fund balance) are found on page 9.

The General Fund (first column) is used to account for most of the Village's general operating activity. This includes activity for the Administration Department, Police Department, Streets and Alleys Department, and the Emergency and Safety Department. Including the effect of operating transfers and capital bond proceeds, the General Fund's expenditures exceeded revenues by \$153,045. The General Fund's financial position resulted in a fund balance from \$1,428,589 on April 30, 2016 to \$1,275,544 on April 30, 2017. Revenues were down 9.5% (\$3,253,416 versus \$3,594,923) due to decrease in insurance proceeds, and actual expenditures decreased by 20% (\$3,423,547 this fiscal year versus \$4,284,644 last fiscal year).

Total expenditures in every General Fund department were below the budgeted amount, as they were last fiscal year.

Information relating to the Nonmajor Governmental Funds is on pages 61 through 70. Nonmajor fund balance decreased from last year by \$154,164.

Proprietary Funds

The Village of Coal City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. The financial statements for the proprietary funds begin on page 12. Proprietary funds use the accrual basis of accounting designed to measure total economic resources. The increase in total net position for the Proprietary Funds is \$407,995.

Fiduciary Funds

The School Site Fund and Police Pension Fund are fiduciary funds of the Village. The financial statements for the fiduciary fund are on pages 15 and 16.

General Fund Budgetary Highlights

Significant differences between the final budget and the actual revenues and expenditures are summarized as follows:

- The difference between the estimated revenues and the actual revenues was \$134,070 (unfavorable).
- The difference between the estimated expenditures and the actual expenditures was \$125,795 (unfavorable).

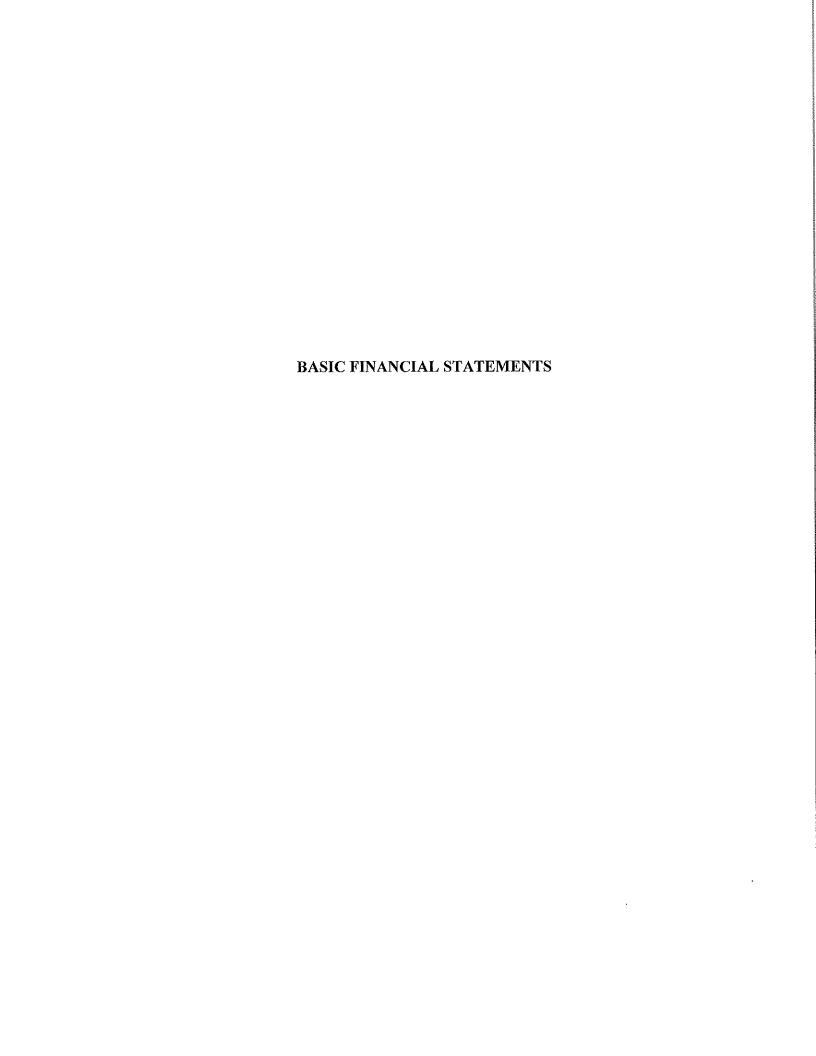

Capital Assets and Long-term Debt

Governmental Capital Asset activity information is presented on pages 29 and 30. Net capital assets decreased by \$487,815 due to depreciation expense in the current year.

The Village of Coal City has long-term debt liabilities of \$13,207,335. Long-term debt decreased \$510,694 from the prior year due to debt payments. For details on the long-term debts of the Village of Coal City, see pages 31 through 33.

Responsibility

Governmental Accounting Standards Board Statement Number 34 mandates that all local government's financial statement include a Management's Discussion and Analysis section. The goal is to give readers an objective, readable overview of the government's financial statements. The Village of Coal City is responsible for preparing this section. Consequently, any question regarding this narrative specifically, or the Village's audit report generally, may be addressed to the Village of Coal City, 515 S. Broadway, Coal City, IL, 60416.

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE GOVERNMENTAL ACTIVITIES IN THE STATEMENT OF ACTIVITIES

		overnmental Activities
NET CHANGE IN FUND BALANCES - TOTAL GOVERNMENTAL FUNDS		(673,460)
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlay as expenditures; however, they are capitalized and depreciated in the statement of activities		322,296
The issuance of long-term debt is reported as an other financing source in governmental funds but as an increase of principal outstanding in the statement of activities		(119,500)
The repayment of the principal portion long-term debt is reported as an expenditure when due in governmental funds but as a reduction of principal outstanding in the statement of activities		177,164
The change in the net pension liability is reported as an expense on the statement of activities		222,260
The change in the deferred outflow is reported as an expense on the statement of activities		(669,947)
Some expenses in the statement of activities (e.g., depreciation) do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds		(1,121,709)
Compensated absences was treated as available resources in the governmental funds. However, they are reported as notes payable in the statement of activities.		(46,587)
The premium on the issuance of long-term debt is capitalized and amortized in the statement of activities		74,492

See accompanying notes to financial statements.

NOTES TO FINANCIAL STATEMENTS April 30, 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Village of Coal City, Illinois (the Village) have been prepared in conformity with accounting principles generally accepted in the United States of America, as applied to government units (hereinafter to as generally accepted accounting principles (GAAP)). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Village's accounting policies are described below.

a. Reporting Entity

The Village is a municipal corporation governed by an elected board. As required by generally accepted accounting principles, these financial statements present the Village (the primary government).

The Village's financial statements include the Police Pension Trust Fund.

The Village's police employees participate in the Police Pension Employees Retirement System (PPERS). PPERS functions for the benefit of these employees and is governed by a pension board. The Village and PPERS participants are obligated to fund all PPERS costs based upon actuarial valuations. The State of Illinois is authorized to establish benefit levels and the Village is authorized to approve the actuarial assumptions used in the determination of contribution levels. Although it possesses many of the characteristics of a legally separate government, the PPERS is reported as if it were part of the primary government because its sole purpose is to finance and administer the pensions of the Village's police employees, and because of the fiduciary nature of such activities. The PPERS is reported as a pension trust fund.

b. Fund Accounting

The Village uses funds to report on its financial position, the changes in its financial position, and cash flows. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Funds are classified into the following categories: governmental, proprietary, and fiduciary.

NOTES TO FINANCIAL STATEMENTS April 30, 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

b. Fund Accounting (Continued)

Governmental funds are used to account for substantially all of the Village's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the acquisition or construction of general capital assets (capital projects funds) and the servicing of general long-term debt (debt service funds). The general fund is used to account for all activities of the general government not accounted for in some other fund.

Proprietary funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Goods or services from such activities can be provided either to outside parties (enterprise fund) or to other departments or agencies primarily within the Village (internal service funds).

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the Village. The Village utilizes trust funds which are generally used to account for assets that the Village holds in fiduciary capacity.

c. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statements of net position and the statement of activities) report information on all of the non-fiduciary activities of the Village. The effect of material interfund activity has been eliminated from these financial statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

NOTES TO FINANCIAL STATEMENTS April 30, 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICES (Continued)

c. Government-Wide and Fund Financial Statements (Continued)

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major enterprise funds are reported as separate columns in the financial statements.

The Village reports the following major governmental funds:

The General Fund is the Village's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Debt Service Fund is used to account for the servicing of general long-term debt not being financed by proprietary funds.

The Capital Project Funds is used to account for the accumulation of funds for capital expenditures. A portion of the revenue in this fund (interest on deposits) is legally restricted for expenditures for this purpose.

The Village reports the following major proprietary funds:

The Water/Sewer System Fund accounts for the provision of portable water/sewer services to the residents of the Village. All activities necessary to provide such services are accounted for in this fund.

The Garbage Fund accounts for the provision of garbage disposal services to the residents of the Village. All activities necessary to provide such services are accounted for in this fund.

The Village reports the following fiduciary funds:

The Village reports a School Site fund as a fiduciary fund to account for the School Site holdings. The Village also reports a Pension Trust Fund to account for the Police Pension Fund.

The Village reports the following nonmajor governmental funds:

The Special Revenue Funds are used to account for revenues received from specific sources which are required by law or regulation to be accounted for in separate funds.

NOTES TO FINANCIAL STATEMENTS April 30, 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

d. Measurement Focus, Basis of Accounting, and Basis of Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary funds and fiduciary fund financial statements. Revenues and additions are recorded when earned and expenses and deductions are recorded when a liability is incurred. Property taxes are recognized as revenues in the year for which they are levied (i.e., intended to finance). Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Operating revenues and expenses are directly attributable to the operation of the proprietary funds. Nonoperating revenue/expenses are incidental to the operation of these funds.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become measurable, available and earned). "Measureable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The Village recognizes property taxes when they become both measureable and available in the year intended to finance. Expenditures are recorded when the related fund liability is incurred. Principal and interest on general long-term debt are recorded as expenditures when due.

Those revenues susceptible (within 60 days except sales, income, and telecommunications tax which use 90 days) to accrual are property taxes, franchise taxes, licenses, interest revenue and charges for services. Sales taxes owed to the state at year end on behalf of the Village are also recognized as revenue. Fines and permits revenues are not susceptible to accrual because generally they are not measureable until received in cash.

In applying susceptible to accrual concept to intergovernmental revenues (i.e., federal and state grants), the legal and contractual requirements of the numerous individual programs are used as guidelines. Monies that are virtually unrestricted as to purpose of expenditure, which are usually revocable only for failure to comply with prescribed compliance requirements, are reflected as revenues at the time of receipt or earlier if the susceptible to accrual criteria are met.

NOTES TO FINANCIAL STATEMENTS April 30, 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

d. Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)

The Village reports unearned/unavailable revenue on its financial statements. Unearned/unavailable revenues arise when potential revenue does not meet the measureable, available, and earned criteria for recognition in the current period. Unearned/unavailable revenues also arise when resources are received by the government before it has a legal claim to them as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both the revenue recognition criteria are met, or when the government has a legal claim to the resources, the liability for unearned/unavailable revenue is removed from the financial statements and revenue is recognized.

e. Cash and Investments

Cash and Cash Equivalents: for purposes of the statement of cash flows, the Village's proprietary funds consider all highly liquid investment with an original maturity of three months or less when purchased to be cash equivalents.

Investments: all Village investments and all fiduciary fund investments are stated at fair value in accordance with GASB Statements No. 25 and 31.

Illinois Funds, a money market mutual fund created by the Illinois State Legislature and controlled by the Illinois State Treasure is reported at a \$1 per share value, which equals the Village's fair value in the pool.

f. Interfund Receivables/Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

g. Prepaid Items/Expenses

Payments made to vendors for services that will benefit periods beyond the date of this report are recorded as prepaid items/expenses.

NOTES TO FINANCIAL STATEMENTS
April 30, 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

h. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, storm water), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the Village as assets with an initial, individual cost of more that \$10,000 and an estimated useful life in excess of one year. Such assets are recorded a historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets, as applicable.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. Property, plant, and equipment are depreciated using the straight line method over the following estimated useful lives:

Assets	Years
Buildings and improvements	40-50
Machinery and equipment	10
Infrastructure	20-50

i. Compensated Absences

Vested or accumulated vacation, compensatory, and holiday time are reported as expenditures and a fund liability of the governmental fund that will pay it once retirement or separation has occurred. Vested or accumulated vacation, compensatory, or holiday time of proprietary funds and governmental activities are recorded as an expense and liability as the benefits accrue to employees.

In accordance with the provisions of GASB Statement No. 16, Accounting for Compensated Absences, no liability is recorded for nonvesting accumulating rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that it is estimated will be taken as "terminal leave" prior to retirement.

VILLAGE OF COAL CITY, ILLINOIS NOTES TO FINANCIAL STATEMENTS

April 30, 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

j. Long-Term Obligations

In the government-wide financial statements, and proprietary funds in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund financial statements. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed as incurred.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld form the actual debt proceeds received, are reported as expenditures.

k. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Village only has no items that qualify for reporting in this category.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Village has only one type of time, which arises under a modified accrual basis of accounting that qualifies for reporting in this category. The governmental funds report unavailable revenues from one source: property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

NOTES TO FINANCIAL STATEMENTS April 30, 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1. Fund Balances/Net Position

In the fund financial statements, governmental funds report nonspendable fund balance for amounts that are either not in spendable form or legally or contractually required to be maintained intact. Restrictions of fund balance are reported for amounts constrained by legal restrictions from outside parties for use for a specific purpose, or externally imposed by outside entities. None of the restricted fund balance result from enabling legislation adopted by the Village. Committed fund balance is constrained by formal actions of the Village's Board, which is considered the Village's highest level of decision making authority. Formal actions include ordinances approved by the Village Board. Assigned fund balance represents amounts constrained by the Village's intent to use them for a specific purpose. The authority to assign fund balance has been delegated to the Village's Administrator. Any residual fund balance of the General Fund is reported as unassigned.

The Village's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Additionally, if different levels of unrestricted funds are available for spending, the Village considers committed funds to be expended first followed by assigned and then unassigned.

In the government-wide financial statements, restricted net positions are legally restricted by outside parties for a specific purpose. None of the Village's restricted net positions are restricted as a result of enabling legislation adopted by the Village. Invested in capital assets, net of related debt is the book value of the capital assets less the outstanding principal balance of long-term debt issued to construct or acquire the capital assets.

m. Interfund Transactions

Interfund transactions are accounted for as revenues, expenditures, or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made that are properly applicable to another fund are recorded as expenditures/expenses in the fund that is reimbursed.

All other interfund transaction, except interfund services and reimbursements, are reported as transfers.

NOTES TO FINANCIAL STATEMENTS April 30, 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

n. Accounting Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditure/expenses during the reporting period, Actual results could differ from those estimates.

2. DEPOSITS AND INVESTMENTS

The Village maintains a cash and investment pool that is available for use by all funds, except the fiduciary fund. Each fund's portion of this pool is displayed on the financial statements as "cash and investments." In addition, investments are separately held by several of the Village's funds. The deposit and investments of the fiduciary fund are held separately from those of other funds.

a. Village Deposits and Investments

The Village's investment policy authorizes the Village to invest in all investments allowed by Illinois Compiled Statues. These include deposits/investments in insures commercial banks, savings, and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreements to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services, and Illinois Funds (created by the Illinois State Legislature under the control of the State Comptroller that maintains a \$1 per share value which is equal to the participants fair value).

It is the policy of the Village to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the Village and conforming to all state and local statues governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objectives of the policy are, in order of priority, legality, safety of principal, liquidity, and rate of return.

NOTES TO FINANCIAL STATEMENTS April 30, 2017

2. DEPOSITS AND INVESTMENTS (Continued)

a. Village Deposits and Investments (Continued)

Investments

The following table presents the investments and maturities of the Village's debt securities as of April, 30 2017:

		Investment Maturities in Years							
Investment Type	Fair Value	Less than 1	1-5	6-10	Greater than 10				
Illinois Funds	\$ 719,844	\$ 719,844	\$ -	\$ -	\$ -				
IMET	353,561	353,561	ф	•	<u> </u>				
TOTAL	\$ 1,073,405	\$ 1,073,405	Φ -	Φ -	ъ -				

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the Village limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for short and long-term cash flow needs while providing a reasonable rate of return based on the current market.

Credit risk is the risk that the issuer of a debt security will not pay its par value upon maturity. The Village limits it exposure to credit risk by primarily investing in external investment pools. Illinois Funds are rated AAA.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Village will not be able to recover the value of its investment that are in possession of an outside party. The Village's investment policy does not address custodial credit risk for investments. Illinois Funds are not subject to custodial credit risk

Concentration of credit risk is the risk that the Village has a high percentage of its investments invested in one type of investment. The Village's investment policy requires diversification of investment to avoid unreasonable risk by limiting commercial paper to the lesser of 20% of the cash and investment balance at the time of placement, or 25% of the cash and investment balance.

NOTES TO FINANCIAL STATEMENTS April 30, 2017

2. DEPOSITS AND INVESTMENTS (Continued)

b. Fiduciary Fund Investments (Continued)

The deposits and investments of the Fund are held separately from those of the Village.

Permitted Deposits and Investments – Statutes and the Fund's investment policy authorize the Fund to make deposits/invest in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreements to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the highest classifications by at least two standard rating services, investment grade corporate bonds and Illinois Funds. The Fund may also invest in certain non-U.S. obligations, Illinois municipal corporations tax anticipation warrants, veteran's loans, obligations of the State of Illinois and its political subdivisions, Illinois insurance company general and separate accounts, mutual funds, and corporate equity securities.

Police Pension Fund Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of a bank's failure, the Fund's deposits may not be returned to them. The Fund's investment policy requires all bank balances to be covered by federal depository insurance.

Police Pension Fund Investments

The following table presents the investments and maturities of the Fund's debt securities as of April 30, 2017:

		Investment Maturities (in Years)						
Investment Type	Fair Value	Less than 1	1-5	6-10	More than 10			
U.S. Treasury Obligations	\$ 268,282	\$ -	\$ 186,585	\$ 81,697	\$ -			
U.S. Agency Obligations	1,407,571	90,247	274,065	966,587	76,672			
Municpal Bonds	239,165	35,502	119,275	48,151	36,237			
Mutual Funds	214,929	214,929	-	_	-			
Total	\$ 2,129,947	\$ 340,678	\$ 579,925	\$ 1,096,435	\$ 112,909			

NOTES TO FINANCIAL STATEMENTS April 30, 2017

2. DEPOSITS AND INVESTMENTS (Continued)

b. Fiduciary Fund Investments (Continued)

In accordance with its investment policy, the Fund limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for operating funds and maximizing yields for funds not needed for expected current cash flows. The investment policy does not limit the maximum maturity length of investments in the Fund.

The Fund limits its exposure to credit risk, the risk that the issuer of a debt security will not pay its par value upon maturity, by primarily investing in obligations guaranteed by the United States Government, securities issued by agencies of the United States Government that are explicitly or implicitly guaranteed by the United States Government, and investment grade corporate bonds rated at or above BBB-by Standard and Poor's, Baa3 by Moody's and BBB- by Fitch by at least two of the three rating agencies. The U.S. agency obligations are rated Aaa by Moody's. The corporate bonds are rated Baa3 to Aaa by Moody's. However, certain U.S. agency investments are not rated.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Fund will not be able to recover the value of its investments that are in possession of an outside party. To limit its exposure, the Fund requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment (DVP) basis with the underlying investments held by a third party acting as the Fund's agent separate from where the investment was purchased in the Fund's name. The money market mutual funds and equity mutual funds are not subject to custodial credit risk.

3. RECEIVABLE – TAXES

Property taxes for 2016 attach as an enforceable lien on January 1, 2016, on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by the County and issued on or about May 1, 2017 and are payable in two installments, on or about June 1, 2017 and September 1, 2017. The County collects such taxes and remits them periodically. As the 2016 tax levy is intended to fund expenditures for none of fiscal year 2017, none of the 2016 tax levy has been recognized as revenue as of April 30, 2017 and all of the 2016 tax levy has been deferred as of April 30, 2017.

The 2017 tax levy, which attached as an enforceable lien on property as of January 1, 2017, has not been recorded as a receivable as of April 30, 2017 as the tax has not yet been levied by the Village and will not be levied until December 2017, and, therefore, the levy is not measurable at April 30, 2017.

NOTES TO FINANCIAL STATEMENTS April 30, 2017

4. CAPITAL ASSETS

Capital asset activity for the year ended April 30, 2017 was as follows:

	Balances May I	Additions	Disposals	Balances April 30

5. RISK MANAGEMENT

The Village is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; employee health; natural disasters; and injuries to the Village's employees. The Village maintains commercial insurance coverage covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the Village. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

NOTES TO FINANCIAL STATEMENTS April 30, 2017

6. LONG-TERM DEBT

a. Long-Term Liabilities

Governmental Activities

The Village issued a G.O. Bond June 1, 2009. The bond was issued at \$6,000,000 at a variable interest rate between 1.75% and 4.20% and matures in December, 2024. The bond was paid off as of April 30, 2016 using the G.O. Bonds Series 2015 Refunding Bonds.

The Village issued a G.O. Bond November 25, 2013. The bond was issued at \$1,900,000 with a 4.55% interest rate and matures in November 2023.

The Village has four loans through Centrue Bank issued as \$1,000,000 during fiscal years 2015 and 2016. The interest rate is variable and the current balances as of April 30, 2017 totals \$311,080.

The Village has two loans through Standard Bank and Trust issued at \$744,350 during fiscal year 2016. The interest rate is 2.0% and matures in February 2025.

The Village issued a G.O. Bond December 29, 2015. The bond was issued at \$3,000,000 with a 5.0% interest rate and matures in December, 2030.

The Village issued a refunding G.O. Bond December 29, 2015. The bond was issued at \$4,050,000 with a 5.0% interest rate and matures in December, 2030. This bond was used to payoff G.O. Bond Series 2009.

Business-Type Activities

The Enterprise Funds have three liabilities outstanding. There are three IEPA Loans.

During the fiscal year ended April 30, 2002 the Village was approved for two separate loans through the IEPA. The Village was approved for a \$988,731 loan for water improvements at a rate of 2.905% payable over 20 years. The second loan is the amount of \$4,300,000 at a rate of 2.905% payable over 20 years for sewer improvements.

The Village was issued an additional IEPA loan for a water tower in 2011. This loan was issued for \$1,458,571 maturing in 2030.

8. CONTIGENTS LIABILITIES

a. Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the Village expects such amounts, if any, to be immaterial.

9. MOTOR FUEL TAX ALLOTMENT

Under current procedures, the allotments of the Village are being received from the State of Illinois each month. These allotments, however, may be expended only for specific projects that have been approved by the Department of Transportation, State of Illinois.

NOTES TO FINANCIAL STATEMENTS April 30, 2017

10. EMPLOYEE RETIREMENT SYSTEMS

a. Plan Description

Illinois Municipal Retirement Fund (IMRF)

The Village contributes to a defined benefit pension plan: the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer public employee retirement system. The benefits, benefit levels, employee contributions, and employer contributions for all plans are governed by Illinois Complied Statutes (ILCS) and can only be amended by the Illinois General Assembly. IMRF's plan does not issue a separate report for the plan. However, IMRF does issue a publicly available report that includes financial statements and supplementary information for the plan as a whole, but not for individual employers. That report may be obtained on-line at www.imrf.org.

All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

Police Pension Fund

Police sworn personnel are covered by the Coal City Police Pension Plan. Although this is a single-employer pension plan, the defined benefits and employee and employer contribution levels are governed by Illinois Compiled Statutes (40 ILCS 5/3-1) and may be amended only by Illinois legislature. The Village accounts for the Coal City Police Pension Plan as a pension trust fund.

b. Plan Membership

Illinois Municipal Retirement Fund (IMRF)
At December 31, 2016, IMRF membership consisted of:

Retirees and beneficiaries	13
Inactive, non-retired members	9
Active plan members	19
TOTAL	41

NOTES TO FINANCIAL STATEMENTS April 30, 2017

10. EMPLOYEE RETIREMENT SYSTEMS (Continued)

b. Plan Membership (Continued)

Police Pension Fund At April 30, 2017, membership consisted of:

Inactive plan members or beneficiaries	
currently receiving benefits	3
Inactive plan members or beneficiaries	
entitled to but not yet receiving benefits	0
Active Plan Members	11
TOTAL	14

c. Benefits Provided

Illinois Municipal Retirement Fund (IMRF)

IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011, are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter. The final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 year of IMRF service, divided by 48.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after 10 years of service.

Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with 10 years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter. The final rate of earnings is the highest total earnings during any consecutive 96 months within the last 10 years of IMRF service, divided by 96.

NOTES TO FINANCIAL STATEMENTS April 30, 2017

10. EMPLOYEE RETIREMENT SYSTEMS (Continued)

c. Benefits Provided (Continued)

Police Pension Fund

The Coal City Police Pension Plan provides retirement benefits as well as death and disability benefits. Tier 1 employees (those hired prior to January 1, 2011) attaining the age of 50 or older with 20 or more years of creditable service are entitled to receive an annual retirement benefit equal to one-half of the salary attached to the rank held on the last day of service, or for one year prior to the last day, whichever is greater. The annual benefit shall be increased by 2.50% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75.00% of such salary. Employees with at least eight years but less than 20 years of credited service may retire at or after age 60 and receive a reduced benefit. The monthly benefit of a police officer who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and be paid upon reaching the age of at least 55 years, by 3.00% of the original pension and 3.00% of compounded annually thereafter.

Tier 2 employees (those hired on or after January 1, 2011) attaining the age of 55 or older with ten or more years creditable service are entitled to receive an annual retirement benefit equal to the average monthly salary obtained by dividing the total salary of the police officer during the 96 consecutive months of service within the last 120 months of service in which the total salary was the highest by the number of months of service in that period. Police officers' salary for pension purposes is capped at \$106,800, plus the lesser of ½ of the annual change in the Consumer Price Index of 3.00% compounded. The annual benefit shall be increased by 2.50% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75.00% of such salary. Employees with at least ten years may retire at or after age 50 and receive a reduced benefit (i.e., ½% for each month under 55). The monthly benefit of a Tier 2 police officer shall be increased annually at age 60 on the January 1st after the police officer retires, or the first anniversary of the Noncompounding increases occur pension starting date, whichever is later. annually, each January thereafter. The increase is the lesser of 3.00% or ½ of the change in the Consumer Price Index for the proceeding calendar year.

d. Contributions

Illinois Municipal Retirement Fund (IMRF)

The Village employees participating in IMRF are required to contribute 4.5% of their annual eligible covered salary. The member rate is established by state statute. The Village is required to contribute at an actuarially determined rate. The employer rate for calendar year 2016 was 7.36% of payroll. The Village's contribution requirements are established and may be amended by the IMRF Board of Trustees.

NOTES TO FINANCIAL STATEMENTS April 30, 2017

10. EMPLOYEE RETIREMENT SYSTEMS (Continued)

d. Contributions (Continued)

Police Pension Fund

Employees are required by ILCS to contribute 9.91% of their base salary to the Coal City Police Pension Plan. If an employee leaves covered employment with less than 20 years service, accumulated employee contributions may be refunded without accumulated interest. The City is required to contribute the remaining amounts necessary to finance the Coal City Police Pension Plan as actuarially determined by an enrolled actuary. Effective January 1, 2011, the Village has until the year 2040 to fund 90% of the past service cost for the Coal City Police Pension Plan. For the year ended April 30, 2017, the Village's contribution was 38.4% of covered payroll.

e. Actuarial Assumptions

Illinois Municipal Retirement Fund (IMRF)

The Village's net pension liability was measured as of December 31, 2016 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of the same date using the following actuarial methods and assumptions.

Actuarial valuation date December 31, 2016

Actuarial cost method Aggregate Entry Age Normal

Assumptions

Inflation 2.75%

Salary increases 3.75% to 14.50%

Investment rate of return 7.50%

Cost of living adjustments 4.00%

Asset valuation method 5-year smoothed market

For nondisabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for nondisabled lives.

NOTES TO FINANCIAL STATEMENTS April 30, 2017

10. EMPLOYEE RETIREMENT SYSTEMS (Continued)

e. Actuarial Assumptions (Continued)

For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

Police Pension Fund

The total pension liability above was determined by an actuarial valuation performed as of April 30, 2017 using the following actuarial methods and assumptions.

Actuarial valuation date	April 30, 2017
Actuarial cost method	Entry-age normal
Assumptions:	
Inflation	2.50%
Salary increases	3.75-7.00%
Interest rate	5.50%
Cost of living adjustments	2.50%
Asset valuation method	Market value

Mortality rates were based on rates developed in the L&A 2016 Mortality Table for Illinois Police Officers. Other demographic assumption rates are based on a review of assumptions in the L&A 2016 study for Illinois Police Officers.

f. Discount Rate

Illinois Municipal Retirement Fund (IMRF)

The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that The Village's contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the IMRF's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTES TO FINANCIAL STATEMENTS April 30, 2017

10. EMPLOYEE RETIREMENT SYSTEMS (Continued)

f. Discount Rate (Continued)

Police Pension Fund

The discount rate used in the determination of the Total Pension Liability is based on a combination of the expected long-term rate of return on plan investments and the municipal bond rate. The rate used was 5.50%. Cash flow projections were used to determine the extent which the plan's future net position will be able to cover future benefit payments. To the extent future benefit payments are covered by the plan's projected net position, the expected rate of return on plan investments is used to determine the portion of the net pension liability associated with those payments. To the extent future benefit payments are not covered by the plan's projected net position, the municipal bond rate is used to determine the portion of the net pension liability associated with those payments. The plan's projected net position is expected to cover future benefit payments in full for the current employees. Projected benefit payments are determined during the actuarial process based on the assumptions.

g. Discount Rate Sensitivity

Illinois Municipal Retirement Fund (IMRF)

The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below presents the net pension liability of The Village calculated using the discount rate of 7.50% as well as what The Village's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.50%) or 1 percentage point higher (8.50%) than the current rate:

	1% Decrease		Ct	ırrent Rate	1% Increase		
		(6.50%)		(7.50%)		(8.50%)	
Net pension liability (asset)	\$	650,189	\$	87,990	\$	(369,444)	

Police Pension Fund

The following is a sensitive analysis of the net pension liability to changes in the discount rate. The table below presents the pension liability of the Village calculated using the discount rate of 5.5% as well as what the Village's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (4.5%) or 1 percentage point higher (6.5%) than the current rate.

	1	1% Decrease		Current		1% Increase		
		(4.50%)	R	ate (5.50%)		(6.50%)		
Net pension liability	\$	7,418,745	\$	5,846,130	\$	4,615,176

Notes to Required Supplementary Information

The information presented was determined as part of the actuarial valuations as of January 1 of the prior fiscal year. Additional information as of the latest actuarial valuation presented is as follows: the actuarial cost method was entry-age normal; the amortization method was level percentage of pay, closed and the amortization period was 27 years; the asset valuation method was 5-year smoothed market; and the significant actuarial assumptions were an investment rate of return at 7.50% annually, projected salary increases assumption of 3.75% to 14.50% compounded annually and postretirement benefit increases of 3.00% compounded annually.

^{*}IMRF's measurement date is December 31, 2016; therefore information above is presented for the calendar year ended December 31, 2016.

This is a 10-year schedule - however, the information is not required to be presented retroactively. Information will be added to this schedule until 10 years of information is available.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION April 30, 2017

1. BUDGETS

The Budget Ordinance is prepared in tentative form by the Village, reviewed and approved by the Village Board, and is made available for public inspection at least ten days prior to final Board action. A public hearing is held on the tentative Budget Ordinance to obtain taxpayer comments.

Prior to August 1, the Budget ordinance is legally enacted through the passage of a Budget ordinance. All actual expenditures contained herein have been compared to the annual operating budget.

The Board of Trustees may:

By two-thirds vote transfer, within any department, amounts budgeted for an object or purpose to another object or purpose. No object or purpose can be reduced below an amount sufficient to provide for all obligations incurred, or to be incurred, against the budgeted amount.

Adopt a supplemental budget ordinance in an amount not to exceed any additional revenue available, including unappropriated fund balances or amount estimated to be received after adoption of the annual budget ordinance.

Management cannot amend the Budget Ordinance. However, expenditures may exceed budgets at the subject level. Expenditures that exceed individual budgets at the object level must be approved by the Board of Trustees, as outlined above.

The Village does not use the encumbrance method of accounting. Budgetary funds are controlled by an integrated budgetary accounting system, in accordance with various legal requirements which govern the Village.

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the General, Debt Service, Special Revenue, and Enterprise Funds.

The operating budget is the management control for spending. The manager is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund are done through the approval of the Village Board of Trustees and are supported by budget amendments as needed.

Operating budgets are adopted on a modified accrual basis of accounting for all governmental funds and on an accrual basis for proprietary and fiduciary funds. Budgets have been adopted for the General, Debt Service, Special Revenue, and Enterprise Funds. Budgets for the enterprise funds do not provide for depreciation; capital improvements are budgeted as expenses.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION April 30, 2017

1. BUDGETS (Continued)

All budgets are prepared based on the annual fiscal year of the Village and lapse at year end.

Budget amounts are as originally adopted or as amended by the Village Board of Trustees.

The financial schedules report management's operating budget in the columns titled original budget and final budget for the General, Debt Service, Special Revenue, and Enterprise Funds.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

To the Village Mayor and Board of Trustees Village of Coal City, Illinois

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Coal City, Illinois, as of and for the year ended April 30, 2017, and the related notes to the financial statements, which collectively comprise the Village of Coal City, Illinois' basic financial statements, and have issued our report thereon dated September 19, 2017.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Village of Coal City, Illinois' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Village of Coal City, Illinois' internal control. Accordingly, we do not express an opinion on the effectiveness of the Village of Coal City, Illinois' internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Village's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Village of Coal City, Illinois' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of an entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Village's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
