**RE: INSTALLATION OF A MICRO PET PANTRY NEAR BONAREK REALTY**

The Village has been approached by Bonarek Realty to host a micro pet pantry location within the parking lot that is between their office and the railroad tracks on the west side of S. Broadway. The location of the pantry would enable good visibility to allow patrons to provide donations as well as utilize the items, primarily pet food that is made available within the location. In addition, the realtor staff would be able to monitor and manage the donations and would bring in any dropped off donations that were left over within the office so as not to become a nuisance.

The pantry is just over 3' wide by 6 ½' high and 2' deep. This picture is the same type of pantry that would be placed within the grassy median along the westernmost edge to allow pickup/dropoff to occur closest to the parking lot side. Overall maintenance of the pantry over time would be the responsibility of Bonarek Realty with the understanding that its placement could be revoked if it becomes problematic for any reason.

Their hope is to help our local pets who may be in need. This is unlike many of the existing programs and goes beyond a facility utilization due to its intended permanency. Please consider allowing the pantry to be placed as Bonarek Realty staff finds the time to complete this project.

**RE: APPROVAL OF MFT FUNDS TO BE EXPENDED UPON N. BROADWAY  
BRIDGE ENGINEERING**

The Village has been receiving additional one-time capital ReBUILD Bonds MFT funds for a project to be completed in 2022. The State of Illinois has been making two payments per year for the last two years including two more to be provided in 2022, in order to fund a bond-qualified transportation improvement. The Board of Trustees has previously contracted with Chamlin Engineering to complete the design engineering services, but the adoption of this resolution will allow the Motor Fuel tax dollars to be expended for the payment of these services.

**Recommendation:**

Adopt Resolution No. \_\_\_\_\_: Authorizing the Utilization of MFT funds to pay for the Design Engineering of the N. Broadway Bridge Replacement over the Claypool Ditch.

**RE: PUBLIC ENGAGEMENT SERVICES FOR PARKS FACILITIES AND PROGRAMMING**

One of the long-term, complex goals of the 2018 Strategic Plan included studying the best means of providing parks services and facilities for the community to include the evaluation of a park district and its impact in providing such services. Wight & Company has been assisting a committee of residents to contemplate what a community facility would entail and the services at such a facility. At this point, the committee along with the approval of the park Board would like to enter a public engagement phase where such services and possible facilities would be available for public input.

This is the part of the process where there are some tangible ideas as to what could possibly be constructed have gathered in order to receive additional input and gain feedback from the public concerning if such ideas meet the public demand and evaluate the means of such designs to become a reality.

A representative of Wight & Co. shall be present to answer any questions regarding the attached contract, which is designed to provide a finished product by fall of 2022 to provide information for the community. A portion of this analysis will involve some voter analysis should the issuance of debt for the construction of a facility provide the best viable option. Wight & Co. is experienced with this type of project and carefully monitors the body of work to ensure that any time billed qualifies with payment of public funds.

**Recommendation:**

Authorize Mayor Halliday to enter into a contract for professional services with Wight & Co. for an estimated \$28,100 to be funded from the Parks Fund.
