MEETING

DATE: August 24, 2022

RE: KNIGHTS OF COLUMBUS ANNUAL FUND RAISING

Representatives of the local Braidwood Knights of Columbus Post will be present on Wednesday evening to complete their publicity and raise awareness that they intend to collect donations outside of Coal City businesses the third weekend of September. This has been an annual event in which the post participates and they follow regulations staying at business entrances to request donations. Upon the request for the Proclamation, staff checked the Illinois Attorney General's (AG) Database and the Illinois State Council Knights of Columbus continue to have increasing assets and are in good standing with the AG's Office.

Attached is a Proclamation to be authorized by Mayor Halliday as well as their request. In line with the allowable regulations of the Village, members from their chapter will be collecting at area businesses Friday, September 16th through Sunday, September 18th.

Braidwood Knights of Columbus Council # 1574

The Knights of Columbus are holding the annual tootsie roll drive on Sept. 16, 17, and 18th 2022. We will have volunteers standing at business locations in coal city with permission. We will be standing from 9AM till 5 PM on Friday. Saturday we will stand at business locations from 9 AM till 4 PM. Sunday we will stand at business locations from 9 AM till 12 Noon. We are asking for the City Councils approval to perform this annual fund drive. The tootsie roll funds are used to help people with Intellectual Disabilities. One of the members will be at your Council meeting on Wed. Aug 24th. Please let me know if you need any more info.

William C Pohl
Tootsie Roll Chairman
815-671-7665
Knights of Columbus # 1574

PROCLAMATION

WHEREAS, the Knights of Columbus, a fraternal benefit society founded by Fr. Michael J. McGivney with a group of parishioners in the basement of St. Mary's Church in New Haven Connecticut on March 29, 1882 with the principles of charity, unity, and fraternity; and

WHEREAS, 140 years later, the Knights of Columbus has grown to the largest lay Catholic organization in the world with more than 1.7 million members including residents of the Village of Coal City and surrounding municipalities; and

WHEREAS, the Illinois State Council of the Knights of Columbus members will conduct its 53rd Annual Fund Raiser for Citizens with developmental disabilities on Friday, Saturday, and Sunday September 16th, 17th, and 18th, 2022; and

WHEREAS, the Knights of Columbus would like to undertake an annual tradition of the "Tootsie Roll Drive" to raise funds for local programs that assist special needs children; and

WHEREAS, charitable contributions raised from this event assists local parents and teachers of mentally disabled children as well as the medical needs, necessary therapy, vocational assistance, miscellaneous supplies and provide children an opportunity to participate in Special Olympics

WHEREAS, members of the Braidwood Council #1574 will participate in the 53rd Anniversary Annual Drive to benefit citizens with developmental disabilities.

THEREFORE, I, Terry Halliday, President of the Village of Coal City, in the great state of Illinois, in recognition of the effort by the local Knights of Columbus to raise funds for special needs children,

DO HEREBY PROCLAIM SUNDAY, SEPTEMBER 18, 2022

AS HELPING RESIDENTS WITH DEVELOPMENTAL DISABILITIES DAY in the Village of Coal City, Illinois.

Mayor Terry Halliday

MEETING

DATE: August 24, 2022

**RE: GRANTING A VARIANCE TO ALLOW CHICKENS TO BE KEPT AT
325 ELIZABETH**

Dayna Maggiore, who resides on the south side of a duplex at 325 Elizabeth, would like to keep three chickens within her residential rear yard according to the qualitative standards required to keep chickens as was recently amended within Chapter 91. Ms. Maggiore has remained patient as the Planning & Zoning Board (P&Z Board) and Village Board have been considering the necessary requirements for keeping chickens within a residential area.

Upon the adoption of Ordinance #22-16, the separation required for the requisite boundary of a poultry yard and any adjacent residential structures is 75 linear feet. Due to the proximity of neighbors within the petitioner's duplex home, it is not possible to gain this separation because of the 0' setback from her duplex neighbor as well as the placement of a detached structure within the rear yard of her neighbor to the south. Ms. Maggiore plans upon placing the chicken coop in the northeast portion of her rear yard, adjacent to the Village's bikepath; this will require a variance of 40' for the proximity of the poultry yard to the southerly neighbor's detached garage and 30' variance due to the location of the primary structure of the duplex neighbor to the petitioner's north.

Although a maximum of 5 chickens are allowed. The petitioner only plans upon maintaining 3 chickens within her coop. All but one P&Z Board member voted in favor of recommending this variance to the Village Board. Despite a very full room for another matter on the agenda, no one wished to speak during her public hearing concerning her variance request. The one vote against the petition came from the P&Z Board member who had not been in favor of the recent code amendment and wants the separation between this utilization and neighboring structures to be maintained at the final 75' requirement that was included within the code.

Recommendation:

Adopt Ordinance No. ____: Granting a Variance to allow Chickens to be kept at the property - 325 Elizabeth.

COAL CITY ZONING APPLICATION

ORDINANCE NO. _____

**AN ORDINANCE GRANTING A VARIANCE TO THE VILLAGE CODE FOR THE
REQUIRED SEPARATION BETWEEN POULTRY YARDS AND ADJACENT
STRUCTURES AT 325 ELIZABETH DRIVE IN THE VILLAGE OF COAL CITY**

WHEREAS, an application for variance from the poultry yard separation requirement of the Village of Coal City Code (“Code”) was filed by Dayna Maggiore (“applicant”) on July 21, 2022 to allow the keeping of chickens within the northeast portion of her rear yard; and

WHEREAS, the standards provided within Chapter 91.38 regarding the minimum required separation is 75’ and the intended separation is planned to be 35’ from the southerly neighbor’s detached secondary structure (variance of 40’) and 45’ from the adjacent primary structure built adjacent alongside the petitioner’s north side (variance of 30’); and

WHEREAS, a public hearing was noticed and duly held on August 15, 2022; and

WHEREAS, the Village of Coal City Planning and Zoning Board met on August 15, 2022, and considered passage of the variance request to the Board of Trustees; and

WHEREAS, Section 156.250 permits the Village Board to approve variations from the Zoning Code; and

WHEREAS, the Village Board of Trustees and the President of the Village of Coal City believe it is in the best interests of the Village to grant the requested variances.

NOW THEREFORE, BE IT ORDAINED by the President and Board of Trustees of the Village of Coal City, Grundy and Will Counties, Illinois, as follows:

Section 1. Recitals. The foregoing recitals shall be and are hereby incorporated into and made a part of this Ordinance as if fully set forth in this Section 1.

Section 2. Findings of Fact. The Board of Trustees find as follows concerning the Variance for 325 Elizabeth:

- A. **Special Circumstances Not Found Elsewhere.** The petitioner’s property is the south side of a duplex unit that is limited in its capability to attain the minimum separation from adjacent neighboring structures due to the zero feet of separation from an adjacent neighbor. However, the location of this property against the village bike trail property allows for a great deal of separation for the remaining residential units within the neighborhood.
- B. **Not Resulting From Applicant Action.** The southeast portion of the rear yard that would be able to achieve separation from the adjacent residential duplex neighbor is unavailable due to the placement of a detached structure by the neighbor who is adjacent on the petitioner’s south side.

- C. **Consistency with the Local Area and Comprehensive Plan.** Granting this variance shall only allow a small number of chickens to be kept and maintained on the property; that amount, is consistent with residential allowances and does not rise to the square footage required for agricultural utilization.
- D. **Minimum Variance Recommended.** The petitioner shall abide by all other poultry yard requirements contained within village codes as to the size of the coop maximum amount of chickens allowed and required barriers etc.

Section 3. Description of the Property. The property is located at 325 Elizabeth Drive in the Village of Coal City within an RM-1 District.

Section 4. Public Hearing. A public hearing was advertised on July 27, 2022 in the Coal City Courant and held by the Planning and Zoning Board on August 15, 2022, at which time a majority of the Planning and Zoning Board members recommended passage of the Variance to the Board of Trustees.

Section 5. Variations. The variance requested in the July 21, 2022 Variance Application to the Code is granted as follows:

- A. A variance from the required separation of 75' from the southerly neighbor's detached structure is granted to allow the construction of a poultry yard barrier at least 35' away from said structure, which is a variance of 40'.
- B. A variance from the required separation of 75' from the northerly neighbor's primary residence is granted to allow the construction of a poultry yard barrier at least 45' away from said structure, which is a variance of 30'.

Section 6. Conditions. The variance is granted herein contingent and subject to the installation of the poultry yard shall be constructed within the northeast portion of the petitioner's rear yard in a manner consistent with the presentation of the July 21st petition to the Planning & Zoning Board and the Board of Trustees.

Section 7. Severability. In the event a court of competent jurisdiction finds this ordinance or any provision hereof to be invalid or unenforceable as applied, such finding shall not affect the validity of the remaining provisions of this ordinance and the application thereof to the greatest extent permitted by law.

Section 8. Repeal and Savings Clause. All ordinances or parts of ordinances in conflict herewith are hereby repealed; provided, however, that nothing herein contained shall affect any rights, actions, or causes of action which shall have accrued to the Village of Coal City prior to the effective date of this ordinance.

**AN ORDINANCE GRANTING A VARIANCE TO THE VILLAGE CODE FOR THE REQUIRED
SEPARATION BETWEEN POULTRY YARDS AND ADJACENT STRUCTURES AT 325 ELIZABETH
DRIVE IN THE VILLAGE OF COAL CITY**

Section 9. Effectiveness. This ordinance shall be in full force and effect from and after passage, approval and publication in pamphlet form as provided by law.

SO ORDAINED this _____ day of _____, 2022, at Coal City, Grundy & Will Counties, Illinois.

**RE: ANNUAL LIABILITY AND WORKERS COMPENSATION INSURANCE
COVERAGE RENEWAL FLEXIBILITY**

The Village of Coal City accesses its liability insurance through a self-insured pool by which the risk of the entire group is spread amongst multiple municipalities. Coal City has participated since 2013 in the insurance provided by this group, which includes access to workers compensation coverage by the Illinois Public Risk Fund (IPRF). Due to multiple reasons within the insurance industry the future of this group is somewhat unclear at this time. Of 16 total municipalities within the group, two of them have provided their notice to depart from the group on the heels of two of the larger municipalities who were formerly within the group having departed in the current policy year. In addition to those municipalities, another 4 municipalities have reserved their right to depart at the current year's renewal.

Although some member entities have selected coverage elsewhere, the basics of sharing risk and possibly sharing in dividends during low premium utilization years is beginning to pay off. The balance sheets for the Illinois Municipal Insurance Cooperative (IMIC) are continuing to gain total assets and the ratio of claims to premiums is lessening indicating additional dividend being made available in the future. Lastly, once a municipality leaves the consortium, the possible dividends to be returned are forfeited; based upon the recent departures, there are many more assets than the proportional shares owed to member agencies, which should result in decreased premiums for coverage during the upcoming renewal.

Much like any market place, this commodity, i.e. coverage from certain liabilities at a fixed cost, goes through trends, which can include some irrational non-monetary decisions. Due partly to the increasing reserves from departed past members and the experience of the cooperative as a whole, it looks as though the upcoming year's renewal should be favorable. However, in order to retain flexibility and keep Coal City's options available, the adoption of the attached Resolution shall allow an alternative solution to be utilized versus simply renewing with IMIC. While this is not expected, the rules of the cooperative require notification of any intent to renew elsewhere to be delivered to the group prior to September 1st, prior to renewal. Other options may include purchasing coverage as a single entity, which was done prior to the creation of this group or joining another collaborative purchasing opportunity. More will be known in the weeks to come, but adoption of this Resolution shall allow Coal City to maintain its options and make the best long-term decision at a future date when more information is made available.

Recommendation:

Adopt Resolution No. ____: Providing Notice to the Illinois Municipal Insurance Cooperative of the Capability to Retain Liability Insurance Elsewhere for the Upcoming Policy Year to Begin December 31, 2022.

RESOLUTION NO. _____

A RESOLUTION RETAINING THE CAPABILITY TO ACCESS LIABILITY INSURANCE ELSEWHERE DURING COAL CITY'S UPCOMING LIABILITY INSURANCE RENEWAL POLICY YEAR

WHEREAS, Section 7 of Article VII of the 1970 Illinois Constitution provides that a municipality that is not a home rule unit shall have only the powers granted to them by law and as such the Village of Coal City being a non-home rule unit pursuant to the provisions of said Section 7 of Article, VII, and may exercise only the powers expressly granted by law; and

WHEREAS, the Illinois General Assembly granted non-home rule municipalities broad authority to "pass all ordinances and make all rules and regulations proper or necessary, to carry into the effects the powers granted to municipalities" ILCS 5/1-2-1; and

WHEREAS, the Village is currently a member of the Illinois Municipal Insurance Cooperative (IMIMC); and

WHEREAS, pursuant to the IMIC bylaws, Article XII, Section 1, the Village must authorize the Notice of Withdrawal to IMIC; and

WHEREAS, the renewal of liability insurance for the upcoming policy year to start on December 31, 2022 to run through December 30, 2023 may be placed in another means than have been enjoyed by the Village of Coal City since its chart membership with IMIC since 2013; and

NOW, THEREFORE, BE IT RESOLVED BY THE MAYOR AND BOARD OF TRUSTEES OF THE VILLAGE OF COAL CITY, GRUNDY & WILL COUNTIES, ILLINOIS as follows:

Section 1. The forgoing recitals shall be incorporated into and made part of the Resolution as if fully set forth in Section One.

Section 2. The Mayor and Board of Trustees authorize the Village Administrator with the powers and authority to secure liability insurance for the upcoming policy year starting December 31, 2022. Such authority shall allow for the analysis of multiple methods of gaining liability coverage for the Village. Should the selected methodology no longer include the coverage offered via the IMIC membership renewal, the Administrator is authorized to issue a Notice of Withdrawal.

Section 3. This Resolution shall be in full force and effect immediately from and after its passage and approval as provided by law.

MEETING

DATE: August 24, 2022

RE: FULTON TECHNOLOGIES CONTRACT

Fulton Technologies maintains the Village's sirens each year. Due to their servicing, the Village pays \$979.02 per year (this year a battery replacement is scheduled for an additional 128.80). This amount is included within the Police Department's contractual budget. Although this is a minimal amount, the request is for a contract of service, which must receive the consent of Mayor Halliday. This contract would obtain this service through the end of the next fiscal year, i.e. April 30, 2023. Fulton has historically been utilized for the maintenance of the Village's sirens, which is why the contract has lagged behind the beginning of the contract year for the current fiscal year.

Recommendation:

Authorize Mayor Halliday to enter into a contract with Fulton Technologies to maintain the Village's sirens.

**Village of Coal City
2022/2023 Outdoor Warning Siren System Annual Maintenance Contract**

This is a contract proposal to perform annual maintenance for your Outdoor Warning Siren System. This includes the following on an annual basis for the fiscal year of May 1, 2022 through April 30, 2023. We will perform the following:

- Clean and check contactors in control cabinets.
- Verify no moisture problems in control cabinets.
- Test Data Radio RF power, frequency, and audio levels.
- Test RTU heater circuit and thermostat.
- Test RTU battery and charger. **Change battery if over five years old or fails load test.*
- Check and verify encode and decode signals on radio system.
- Test each command signal for proper timing and function.
- Test each RTU channel for proper status change reporting.
- Check and test siren batteries and fill with distilled water if necessary. **Change batteries if over five years old or fails load test.*
- Check and test siren charging system and all motor controls.
- Check antenna, antenna cable and connectors.
- Check and test grounding system and provide ground rod reading:
- Test siren head heater circuit and thermostat.
- Inspect all relay contacts and connections.
- Check for any apparent breakage, wear and tear or vandalism and report same to owner.
- Inspect siren equipment for looseness or any condition that may compromise the reliability and useful life of the equipment.
- Perform inspection of surge protections system and notify the owner of deficiencies.
- Growl test performed after completion of preventive maintenance.

This contract includes all labor, equipment and material for general maintenance. **Any defective parts or components found will be repaired or replaced at an additional charge to the owner with an additional labor charge to perform the repair, as noted in last year's maintenance you will need to have some batteries replaced.* This is in addition to the basic contract amount approved, if major repairs are necessary, we will contact the owner for approval.

Annual Amt: \$979.02 Battery Amt: \$128.80 Total Amt: \$1,107.82
Batteries Included: 1 RTU @ #2
 Two (2) Federal 5Ts & One (1) Federal 2T22

PLEASE! Do not send payment now, this is not a bill. You will be invoiced after maintenance is completed.

**RE: FIRST PAYMENT FOR 2022 ROADWORK**

At the July 13<sup>th</sup> Regular Meeting, the Village Board adopted the 2022 Street & Alley Roadwork Plan which included a large portion from Motor Fuel Tax (MFT) as well as another portion from non-MFT proceeds. Following the conclusion of a strike by some of the organized labor, D had the local roads completed first, prior to departing for other projects resulting in a majority of the Village's work having already been completed.

Please recall that D's bid exceeded the authorized total payment resolution for MFT by 3%. That amount will be paid from with other local sources. This will come at the time the final retention payment is made for the total work completed. At this time, D is requesting the first payment from MFT totaling \$286,490.60 as recommended by Ryan Hansen, Village Engineer.

**Recommendation:**

Authorize the first payment of 2022 Roadwork Construction with a payment to D Construction of \$286,490.60.

August 18, 2022

Mayor Terry Halliday  
Village of Coal City

## MEMO

**TO:** Terry Halliday and the Board of Trustees  
**FROM:** Matt Fritz, Village Administrator  
**DATE:** August 19, 2022  
**RE:** **COALER PARK DISTRICT SURVEY RESPONSES**

Thanks to the Board's support of the Wight & Company proposal to conduct a survey to receive information regarding the community's support regarding the formation of a Coaler Park District with the purpose of constructing a Coaler Community Center, results were provided last week. Sarah Beach, the Park Board's Liaison and I were present as the Coaler Community Center Citizens Committee received and reviewed this information. In short, the survey results indicated the community is not in favor of forming a park district and funding the construction of a new facility as soon as the November election. Based on the survey results, the committee concluded it should not pursue the park district referenda this fall. The two questions for which the committee was requesting feedback were –

- 1.) Shall the Coaler Park District be established?
- 2.) Shall the Coaler Park District be authorized to increase the indebtedness no more than \$0.15 per centum of the value of taxable property within the district?

### Summary of the committee's work to date

The committee's work met the Village's goal that had been included within the 2018 Strategic Plan, which established a long-term complex goal surrounding the formation of a new park district to provide additional service and facilities for Coal City residents. This strategic goal matched an output from the school's Legacy Learning Team (LLT), which similarly identified the district's formation as the means of increasing wellness for the residents and children within the school district. Prior to the formation of the citizens committee, the school district and village attempted to work on multiple solutions, which would not require the formation of an additional governmental entity. Following the elimination of an intergovernmental agreement whereby the village would release bonds with the School District being responsible for their repayment and the inability to gain a private investor to take on the debt payment responsibilities required to issue adequate capital, a citizens committee was formed in which I participated.

The committee began meeting in the Spring of 2019 and had developed a concept for a community center facility in order to be transparent, develop a proposed cost for the community's consideration and inform residents what was possible with the district's formation. Although significant progress had been made, the threatened closure of Dresden's Nuclear power plant and the inability to predict long-term district tax valuations, the project was shelved awaiting the determination of this major EAV generator for the district. With Illinois' legislation "saving the nuke plants," and Dresden being saved from shutdown, the next election at which the question concerning the formation of the Coaler Park District could be posed is on November 8, 2022. A survey was commissioned to determine whether the formation of a park district with the proposed facility would meet the satisfaction of the community of voters to whom the questions would be placed.

### Survey Findings

The survey was sent to 4,063 households within the proposed Coaler Park District, which is largely coterminous with the Coal City Schools/Library/& Fire Districts. Of these households, 832 responded within a timely fashion in order to be included in the analysis accumulated on August 4, 2022. The response rate exceeded 20%, which is higher than most survey responses conducted by this method by Beyond Your Base, consulting group of Wight & Co. Of these responses, 94% of those who responded answered that a member of their household was likely to vote in the upcoming November 2022 election. Although mail surveys do not represent a scientific poll, they are a tool for collecting public input and understanding the general undertone of the public's responsiveness to the issues presented.

The results do not indicate the responders differentiated between the formation of the district and the funding of the Coaler Community Center capital project. In fact, the funding of the community center was slightly more popular than the formation of the district itself with the proposal for the center possessing 59% of the responders in opposition with 61% opposed to the formation of the district in the first place. Responses were skewed slightly towards those predisposed to be opposed to the district – over 2/3 of the respondents did not have children within their household. 18-54 year olds are predicted to be 53% of the total electorate in November 2022, but only 36% of the survey responses; meanwhile, those who are 55 years of age or older are predicted to make up the remaining 47% of the electorate, but their responses were 57% of the total surveys provided (the remainder did not identify their age).

This survey gathered some input regarding the current availability of programs, services, and facilities. One must exercise caution when reviewing the data. A survey response stating opposition to the district, does not mean the current facilities are adequate. For example, a statement was utilized to gain a response, "Residents already have access to the parks, playgrounds, trails, and other amenities. The addition of a community recreation center is not needed." The majority of the population base within the survey group, i.e. the combined Coal City and Diamond population, did not find this to be a convincing argument against the formation of the district. Carbon Hill, Goose Lake, and the remaining unincorporated residents of the proposed district all found this statement to be very convincing as to why one should not vote for the formation of the district.

The same split responses was evidenced in the statement, "Having access to indoor recreation space will significantly improve our quality of life as well as our health and wellness, especially in the winter months." This time, this statement was provided to evoke the support for the district and facility. The Coal City and Diamond survey responders collaborated to be the only portion, i.e. 603 of the total 832 responses who had less than the majority opposed to this statement. In other words, if a responder is opposed to the formation of the district, such a responder would find this statement "not at all convincing"; the answers followed in that manner for those respondents if they were not located within either of the two municipalities.

Perhaps, this variance can be understood due to an outlier within the survey responses that most likely may only be found within Coal City and Diamond. Only 25 of the responses were received from renters within the survey. However, of this group, 78% would be inclined to vote

for the formation of a district. This population is most likely wholly contained within the 603 responses that came from the Coal City & Diamond survey responders. Another supporter of the district was those households with children. This group, which represents nearly 1/3 of the survey responses provided 54% positive response rate to the formation of the district, but declined when it came to providing additional funds for the construction of a new community center.

Surveys requested which types of activities would be supported by the responders. Please note that only 406 respondents, or 10% of the total proposed district (49% of survey respondents) took the opportunity to provide feedback. While older residents overall did not support the formation of the district, the top ranked 15 programmatic activities, in order of value were –

- |                               |                       |                            |
|-------------------------------|-----------------------|----------------------------|
| 1. Fitness Classes            | 6. Cardio Classes     | 11. Yoga                   |
| 2. Health & Wellness          | 7. Open Gym           | 12. Continuing Ed          |
| 3. Community Events           | 8. Senior Fitness     | 13. Beginner Fitness       |
| 4. Rentals (birthday parties) | 9. Group Exercise     | 14. Game Nights/Card Games |
| 5. Arts & Crafts              | 10. Family Fun Nights | 15. Holiday Events/Parties |

These events are by and large not being offered to the community within existing governmental facilities and tend to be the descriptions of events enjoyed by an adult and senior population, which are not available within private gym memberships. The top 15 results are very similar when reviewing just the 254 Coal City responses – the first two items were switched in popularity, but the top three items were the only ones to achieve either side of 50% of supporting responses. For the Coal City responses, the only difference in the top 15 is #14 – Game Nights/Card Games only garnered 29% of support from respondents, while “After School Programs” cracked the top 15 with 30% support.

Interestingly, some of the lead advocate organizations, which expressed frustration with the requirements and/or available facilities for utilizing existing school space, i.e. Coal City Soccer and Wrestling did not fare well within the activity rankings at all. Wrestling ranked near the bottom with 6% of all respondents (12 in Coal City) stating they would look forward to utilizing the facility for this activity. Soccer carried only 16% of all respondents (33 in Coal City); although the separate activity of “Indoor Soccer Leagues” did rank much higher with support from 1/5 of all survey responders (49 within Coal City). The proposed facility did accommodate tennis/pickle ball courts for which respondents expressed greater support at 23% of all responses (52 Coal City survey responses).

Lastly, the survey responses point towards the capability of gaining more support if additional education and provision of the future programming was provided. Questions were asked of the respondents as to whether they felt informed prior to completing the survey – a majority, nearly 60% felt as though they had been at least somewhat informed. However, one of the age group categories to carry support for the formation of the district – those between the ages of 35 and 44 years old were also the ones who rated their knowledge of the subject area at 70% of knowing at least something about the district prior to responding to the survey. Again, this age group had a lower representation of the response versus the likely electorate with a variance of 2%; while 17% of voters will likely be from this age group, this group was only 15% of the total responses.

The other age group to support adoption of the district was even less represented within the survey sample; those between the ages of 18 and 24 years of age had the widest variance between survey responses and the expected electorate – 11%. Of the 60 survey responses provided from this demographic, it carried the highest support for the district at 54% of its formation. As stated before, overall, those respondents between the ages of 18 to 54 years of age were underrepresented. It is necessary to find the means of getting these residents involved in stating their needs when examining what the future of programming and facilities should be.

Despite what might be evidence of some additional facilities and programming needs, the timing is wrong to ask for the formation of this district. A question was asked gaining input from responders as to whether the proposed estimated tax increase would cause the responder to choose from 1.) extremely concerned, 2.) very concerned, 3.) somewhat concerned, or 4.) not very concerned – 65% of all responders registered as either being extremely or very concerned about the additional tax right now. This survey is being taken at a time when the latest inflation rate for July of 2022 for the Midwest listed by the Department of Labor registers an 8.6% increase over last year. The remaining minority (the other 35% of respondents), which is either somewhat or not concerned possess a majority of their response classification who support the construction of the community center (235 total responses). The selection of these categories shows the question of a new facility, in the current environment, is overwhelmingly not going to be supported.

### Conclusion

The long-term complex goal of the Village Board has been completed. The formation of a park district was investigated and survey results bear the information this goal would not be supported at this time. The resources of the Park Board continue to be greatly limited. The maximum tax levy due to the total assessed valuation of Coal City only yields approximately \$100,000 per year for all park functions to include maintenance and existing facility repair.

The facilities and programming made available to Coal City residents pales in comparison to the potential Coalier Park District, which would possess an estimated assessed valuation of \$810 million or roughly 6.23 times that of the Village alone. In other words, the inability of Coal City residents to access capital funding via the park district could only raise \$200,000 (at the same proposed levy rate), which is woefully inadequate of the capital necessary to construct the proposed \$18.2 million facility, requiring annual debt financing of \$1.215 million per year (due to the larger district's boundaries - \$772,075 of this annual amount would be paid by the district's energy producers leaving the remaining 36% to be collected from all other taxpayers - \$180,000 would come from the Coal City rate payers).

The survey listed the most popular activities supported by survey recipients, which may be the basis to form additional parks programming in the short-term. However, these activities fit the profile of a portion of the Coal City residents. Those aged 55 years and older rated activities of Aerobics, Social Clubs, Circuit Training and Pickleball much higher than any of the overall top three categories. Although the current strategic plan item may have been resolved, the data provides support that it is a community center that can accommodate the full array of activities desired by a broad electorate of different ages, socioeconomic class and demographics.

Public Opinion  
Research

Dear Mr. Fritz:

Attached are the crosstabs associated with the recent mail survey conducted Beyond Your Base.

The survey was mailed to 4,063 registered voter households within the proposed park district boundary. The questionnaire served as an invitation for public reaction to the formation of a new park district and the funding of a new community center.

A total of 832 surveys were returned before the posted deadline. This represents a response rate of 20%, with 94% of those participating in the survey having at least one person in the household identified as a likely voter for the November 2022 election. Mail surveys previously conducted by BYB had a response rate of between 8% and 17%.

The mail questionnaire used for this research is not a scientific poll, but a tool for collecting public input and understanding the general tone of the public's receptiveness to the issues presented.

Beyond Your Base acknowledges that this particular questionnaire functions as an opportunity to disseminate information and as an information-gathering tool and in no way represents a survey that estimates statistical margin of error. The results are subjective and limited in interpretation based on the volume of returns, not the science of returns. Think of this document as a written collection of comments from people who would have stood up and participated in a public hearing, but instead preferred to express their feelings in writing.

Following is a summary of the key findings of the mail survey:

- Compared to likely voters for the November 2022 General Election, voters 18 to 54 were underrepresented and voters 55+ were overrepresented.
- Female voters were overrepresented in the survey compared to likely voters for the November 2022 election.
- There is modest awareness of the District's funding proposal, with 59% of respondents having read, seen or heard a lot or some about the funding proposal.
- The walk/jog track and multipurpose field (converting to gym floor) were of highest priority to the participants.
- Among the programs and events that respondents were most interested in include fitness classes, health and wellness programs, and community events.

211 North Clinton Street, Suite 3N, Chicago, IL 60661  
2500 North Frontage Road, Darien, IL 60561

- Arguments in favor of the Coaler Community Center that resonated most with respondents were tied to after-school and summer programs as well as improving the community's quality of life.
- Arguments against the project that resonated most with respondents involved the rising cost of living and increased taxes.
- Tax sensitivity is high, with 65% of respondents extremely or very concerned about the estimated tax impact.
- The mail survey indicates limited support for the formation of a new park district, with 61% against the proposal at this time.
- The mail survey also indicates limited support at this time for the proposed referendum to fund the community center, with 59% against the proposal in its current form.
- There is limited support for the Coaler Community Center proposal in its current form across most demographics, except for renters and to some degree voters 18 to 44 years.

Previous mail surveys conducted by Paul Hanley of Beyond Your Base on behalf of Illinois public entities have consistently identified support levels for proposed referenda that were below the final results at the ballot box. The only instance in which this was not the case was for New Trier School District in which the mail survey results exactly matched the support level on Election Day. However, given the intensity of the opposition, it is unlikely that the formation of a new park district and a referendum to fund a new community center in its current form would be successful on the November 2022 ballot.

If you have additional questions regarding the survey results, please contact me at your convenience.

Respectfully,

**Paul A. Hanley**  
Managing Director  
Beyond Your Base

Table 1-1: QUESTION 1: Before receiving the enclosed information, how much had you read, seen or heard about the proposals to form a new park district and to fund construction of a new community recreation center in Coal City?

 QUESTION 5B:  
 Following are some of the statements people have made in favor of funding the construction, operation and maintenance of a new community recreation center in Coal City. On a scale from 1 to 5, with 1 being Not at All Convincing and 5 being Very Convincing, how would you rate each of the following statements as a reason to vote FOR the formation of a new recreation district and the funding of a new community recreation center?  
 Having access to indoor recreation space will significantly improve our quality of life as well as our health and wellness, especially in the winter months.

 QUESTION 5B:  
 Following are some of the statements people have made in favor of funding the construction, operation and maintenance of a new community recreation center in Coal City. On a scale from 1 to 5, with 1 being Not at All Convincing and 5 being Very Convincing, how would you rate each of the following statements as a reason to vote FOR the formation of a new recreation district and the funding of a new community recreation center?

Having access to indoor recreation space will significantly improve our quality of life as well as our health and wellness, especially in the winter months.

 QUESTION 5D:  
 Following are some of the statements people have made in favor of funding the construction, operation and maintenance of a new community recreation center in Coal City. On a scale from 1 to 5, with 1 being Not at All Convincing and 5 being Very Convincing, how would you rate each of the following statements as a reason FOR the formation of a new recreation district and the funding of a new community recreation center?

The community recreation center would attract and retain young families, professionals and businesses, helping to strengthen property values and our local economy.

BASE=TOTAL SAMPLE  
GIVEN THE RISING COST OF LIVING, THIS IS NOT A GOOD TIME TO BE ASKING FOR MORE TAX DOLLARS.

OUR TAXES ARE ALREADY TOO HIGH.  
FORMING A NEW RECREATION DISTRICT MEANS THAT THERE WILL BE ANOTHER TAXING ENTITY IN OUR AREA. THAT'S NOT SOMETHING RESIDENTS WANT, EVEN IF IT'S NEEDED TO BRING A NEW RECREATION CENTER HERE.

RESIDENTS ALREADY HAVE ACCESS TO THE PARKS, PLAYGROUNDS, TRAILS, AND OTHER AMENITIES. THE ADDITION OF A COMMUNITY RECREATION CENTER IS NOT NEEDED.

IF WE NEED MORE INDOOR RECREATION OPPORTUNITIES, THEN PRIVATE FITNESS CLUBS SHOULD ADDRESS THOSE NEEDS.

Table 18-1  
 QUESTION 6A: Residents already have access to the parks, playgrounds, trails, and other amenities. The addition of a community recreation center is not needed.  
 Following are some of the statements people have made against funding the construction, operation, and maintenance of a new community recreation center in Coal City. On a scale from 1 to 5, with 1 being Not at all Convincing and 5 being Very Convincing, how would you rate each of the following statements as a reason to vote AGAINST the formation of a new recreation district and the funding of a new community recreation center?

Residents already have access to the parks, playgrounds, trails, and other amenities. The addition of a community recreation center is not needed.

 QUESTION 6A:  
 Following are some of the statements people have made against funding the construction, operation, and maintenance of a new community recreation center in Coal City. On a scale from 1 to 5, with 1 being Not at all Convincing and 5 being Very Convincing, how would you rate each of the following statements as a reason to vote AGAINST the formation of a new recreation district and the funding of a new community recreation center?

Residents already have access to the parks, playgrounds, trails, and other amenities. The addition of a community recreation center is not needed.

 QUESTION 6C: Following are some of the statements people have made against funding the construction, operation, and maintenance of a new community recreation center in Coal City. On a scale from 1 to 5, with 1 being Not at all Convincing and 5 being Very Convincing, how would you rate each of the following statements as a reason to vote AGAINST the formation of a new recreation district and the funding of a new community recreation center?

If we need more indoor recreation opportunities, then private fitness clubs should address those needs.

Table 21-1  
 QUESTION 6D:  
 Following are some of the statements people have made against funding the construction, operation, and maintenance of a new community recreation center in Coal City. On a scale from 1 to 5, with 1 being Not at all Convincing and 5 being Very Convincing, how would you rate each of the following statements as a reason to vote AGAINST the formation of a new recreation district and the funding of a new community recreation center?

Forming a new recreation district means that there will be another taxing entity in our area. That's not something residents want, even if it's needed to bring a new recreation center here.

 QUESTION 6E: Following are some of the statements people have made against funding the construction, operation, and maintenance of a new community recreation center in Coal City. On a scale from 1 to 5, with 1 being Not at all Convincing and 5 being Very Convincing, how would you rate each of the following statements as a reason to vote AGAINST the formation of a new recreation district and the funding of a new community recreation center?

Given the rising cost of living, this is not a good time to be asking for more tax dollars.

 QUESTION 7:  
 Constructing, operating, and maintaining a new community recreation center would require a tax rate increase of \$75 per year per \$100,000 of a home's fair market value. How concerned are you about this size tax rate increase on your own family's budget?
